

Class 5 Homework

Linking to our learning theme, 'North America,' we are currently learning about the countries, climate, geographical features, capital cities, time zones and comparing our region in the U.K. with a region in North America. We would like you to get involved at home by creating a project about a natural or man-made feature, which can be found in North America e.g. The Grand Canyon, The Empire State Building, Niagara Waterfall, The Statue of Liberty, Yellow Stone National Park, Lake Superior, Everglades National Park

(Please think outside the box and try and find somewhere new and exciting!)

The project could be presented in different ways—you can choose:

Art Work

A film

A collection of images or drawings

A model

A poster

A fact file with written or typed facts

You may wish to use resources such as the internet, a visit to the library or asking family.

To be handed in on: Monday 23rd February 2015

Thank you—Mrs Johnson and Mrs Lupton
