

We have been doing lots of work on 3D and 2D shapes in Class 2. Over the holidays I would like the children to keep an eye out for everyday objects that are shapes they recognise e.g. a kitchen roll is a Cylinder, a cereal box is a Cuboid, an envelope is a Rectangle etc. The children can then sort the shapes out into the correct box, drawing and labelling their object.

 <p>Squares</p>	 <p>Rectangles</p>	 <p>Triangles</p>	 <p>Circles</p>	 <p>Cubes</p>
 <p>Cuboids</p>	 <p>Cones</p>	 <p>Pyramids</p>	 <p>Cylinders</p>	 <p>Spheres</p>
