

Class 3 Homework - Due in Friday 16th September 2016

In our geography lesson this week we learned that the United Kingdom is made up of 4 countries - England, Scotland, Northern Ireland and Wales.

Your task is to find out the names of the capital cities of each of these countries and find out at least one fact about them.

You can use the internet or books to help you. If you are struggling to find any information please talk to me and I can help you in school.

Please put your answers on the sheet provided, if you want to find out more than one fact then write them on a separate sheet or use the back. Please make sure your work is neat.

Parents:

Please feel free to support your child with their homework by questioning, prompting and helping them. The children were very good at using atlases in our lesson the other day and were very good at finding and locating information themselves so this is something you could remind them of and encourage them to have a go themselves first .
