

 <p>Code</p>	<p>This concept involves developing an understanding of instructions, logic and sequence.</p>
 <p>Connect</p>	<p>This concept involves developing an understanding of how to safely connect with others.</p>
 <p>Communicate</p>	<p>This concept involves using apps to communicate one's ideas.</p>
 <p>Collect</p>	<p>This concept involves developing an understanding of databases and their uses.</p>

KS1 Cycle A 20/21	Autumn			Spring		Summer	
	Breadth	Painting	Using the Internet	Programming Toys	Online Safety	Preparing for Turtle Logo / Scratch Junior programming	Presentation / WP Skills / Scratch
Knowledge Categories							
Overview	Use basic painting skills in a painting application Children will use different colours and brushes, create shapes, fill areas, undo and redo and add text.	Learn how to search the Internet using one word; how to make sense of the returned result Learn how to follow a weblink. understand how to blog safely and responsibly	Understand algorithms as a set of step-by-step instructions given to a device.	Look at digital footprints. Improve the efficiency of their online searches, the types of websites that are best for children to access when looking for information, identify inappropriate content and the actions they should take if they do. Develop an understanding of 'cyberbullying' and look at how they should communicate online and deal with instances of people being unkind via digital means.	Enable children to create, test and debug algorithms, and preparing children to use the language of Turtle Logo. The children begin by giving and following instructions to move forward and make quarter turns, followed by walking different rectilinear shapes. The language is extended to use the main Turtle Logo commands. Children will create, text and debug algorithms for shapes and routes	Children will learn how to type with two hands, use the shift, space and enter key properly, and edit work by using the backspace, delete and arrow keys. Children will then go on to learn how to use undo and redo and to select and format text.	Children will use the basic commands in Logo to move and draw using the turtle on screen, and then further develop algorithms using the "repeat" command.
NC Links	Use technology purposefully to create, organise, store, manipulate and retrieve digital content.	Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the Internet or other online technologies.	Understand what algorithms are; how they are implemented as programs on digital devices. Create and debug simple programs	Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.	Understand what algorithms are, and that programs execute by following precise and ambiguous instructions. Create and debug simple programs.	Use technology purposefully to create, organise, store, manipulate and retrieve digital content.	Understand what algorithms are; and that programs execute by following precise and ambiguous instructions. Create and debug simple programs. Use logical reasoning to predict the behaviour of simple programs.

Milestone 1	Use a range of applications and devices in order to communicate ideas, work and messages.	Understand online risks and the age rules for sites.	<p>Motion: Control motion by specifying the number of steps to travel, direction and turn.</p> <p>Events: Specify user inputs (such as clicks) to control events.</p> <p>Control: Specify the nature of events.</p>	<p>Participate in class social media accounts.</p> <p>Understand online risks and the age rules for sites.</p>	<p>Motion: Control motion by specifying the number of steps to travel, direction and turn.</p> <p>Draw: Control when drawings appear and set the pen colour, size and shape.</p> <p>Events: Specify user inputs (such as clicks) to control events.</p> <p>Control: Specify the nature of events</p> <p>Sensing: Create conditions for actions by waiting for a user input</p>	Use a range of applications and devices in order to communicate ideas, work and messages.	<p>Motion: Control motion by specifying the number of steps to travel, direction and turn.</p> <p>Looks: Add a text strings, show and hide objects and change features of an object.</p> <p>Sound: Select sounds and control when they are heard, their duration and volume.</p> <p>Draw: Control when drawings appear and set the pen colour, size and shape.</p> <p>Events: Specify user inputs (such as clicks) to control events.</p> <p>Control: Specify the nature of events</p> <p>Sensing: Create conditions for actions by waiting for a user input</p>
Vocab	Paint, brush, line, undo, redo, text	Search engine, search, webpage, weblink, blog	Forwards, backwards, left, right, turn, clear, go, commands, route, plan, algorithm, program	Cyberbullying, search engine, safe search, key word	Instruction, sequence, clear, unambiguous, algorithm, program, order, commands, artwork, design, route, mat, debugging, quarter turn	Open, save as, save, text, font, undo, insert, folder, select, delete, backspace	Sprite, block, command, algorithm, 90 degree lf/rt tun, quarter turn, algorithm, debug, shape, repeat, control, combine.

Key Stage 1 Cycle B 21/22	Autumn		Spring		Summer	
Breadth	<u>Computing Systems and Networks – Technology around us</u>	<u>Programming 1 – Moving a robot</u>	<u>Creating media – Digital photography</u>	<u>Data and information – Grouping data</u>	<u>Programming 2 – Robot algorithms</u>	<u>Creating media – Making music</u>
Knowledge Categories						
Overview	Develop their understanding of technology and how it can help us. Become familiar with the different components of a computer by developing keyboard and mouse skills. Consider how to use technology responsibly.	Learners will explore using individual commands, both with other learners and as part of a computer program. They will identify what each floor robot command does and use that knowledge to start predicting the outcome of programs. Learners are also introduced to the early stages of program design through the introduction of algorithms.	Recognise that different devices can be used to capture photographs and will gain experience capturing, editing, and improving photos. Finally, they will use this knowledge to recognise that images they see may not be real.	Pupils will develop understanding of the concept of labelling and grouping objects based on their properties. Pupils will develop their understanding that objects can be given labels, which is fundamental to their future learning concerning databases and spreadsheets. In addition, pupils will begin to improve their ability to use dragging and dropping skills on a device.	Develop pupils' understanding of instructions in sequences and the use of logical reasoning to predict outcomes. Investigate how the order of commands affects the outcome. Learn about design in programming. Develop artwork and test it for use in a program. Design algorithms and then test those algorithms as programs and debug them.	Make patterns and use those patterns to make music with both percussion instruments and digital tools. Create different rhythms and tunes, using the movement of animals for inspiration. Share their creations and compare creating music digitally and non-digitally.
NC Links	Use technology purposefully to create, organise, store, manipulate, and retrieve digital content Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies. KS1 New Cycle A for 22/23	Autumn		Spring		Summer	
Breadth	<u>Computing Systems and networks</u>	<u>Creating media – Digital painting</u>	<u>Programming 1 - Animation</u>	<u>Data and information - pictograms</u>	<u>Digital Writing</u>	<u>Programming 2 - Quizzes</u>
Knowledge Categories						
Overview	Learners will look at information technology at school and beyond, in settings such as shops, hospitals, and libraries. Learners will investigate how information technology improves our world, and they will learn about using information technology responsibly.	Learners develop their understanding of a range of tools used for digital painting. Use these tools to create their own digital paintings.	ScratchJr. - Learners will explore the way a project looks by investigating sprites and backgrounds. They will use programming blocks to use, modify, and create programs.	Learners will begin to understand what the term data means and how data can be collected in the form of a tally chart. They will learn the term 'attribute' and use this to help them organise data. Present data in the form of pictograms and block diagrams. Learners will use the data presented to answer question.	Learners will develop their understanding of the various aspects of using a computer to create and manipulate Become more familiar with using a keyboard and mouse to enter and remove text. Consider how to change the look of their text, and will be able to justify their reasoning in making these changes..	Learners begin to understand that sequences of commands have an outcome, and make predictions based on their learning. They use and modify designs to create their own quiz questions in ScratchJr, and realise these designs in ScratchJr using blocks of code. Evaluate work and make improvements to programming projects.
